Protection Circuit Module Specifications For 18.5V Li-ion/Li-Po Battery Pack

- Model：PCB-LI18.5V7A-PS
- Apply for:
  5 cells Li-ion /Li-polymer battery pack protection
- Dimension：L77*W35*T5mm
- Weight：10 gram

Electric performance：

* Overcharge protection voltage for single cell： 4.325±0.025V
* Overdischarge protection voltage for single cell：2.50±0.05V
* Overcurrent detection protection：7A Limited by Polyswitch
* Maximal continuous discharging current：7A
* Maximal current consumption for single cell： 50uA
* Short circuit protection：Automatic Recovery
* Protection circuitry resistance： ≤60mΩ

Terminal explanations：
